# OREDI FIT

## A gym system made in Sabah, by a Sabahan who does CrossFit.

Class booking, scoring, memberships and a merch shop in one app, on your own domain.

Running at PX5 Functional Gym, Kota Kinabalu

WHY I BUILT THIS

# I do CrossFit, and I wanted something that fit us

*"I know how much a good coach and a full class mean to a box. But every gym system I looked at was built overseas, billed in USD, and never really worked the way we do things here. So I built one for us. PX5 uses it every day."*

**Razie Alfiedan**

Nuaie Studio, Penampang

### Made in Sabah

You can WhatsApp me directly. No ticket numbers, no waiting for another time zone to wake up.

### Used every day

PX5 runs on it across two locations. Real members, real classes.

### Made for community

PR wall, props, birthdays and team events. The small things that bring people back.

SOUND FAMILIAR?

# Running a gym shouldn't need six different apps

OREDI

### Bookings in WhatsApp

Screenshots, scrolling back through messages, and the odd double booking.

### Empty spots

You only find out a class is half empty when it starts.

### Chasing payments

Receipts buried in chats. Checking the bank late at night.

### Scores on a whiteboard

Wiped by the evening. No history, no PRs.

### Members drifting off

Nothing to open between classes, so they forget about you.

### USD bills

Per-user fees, paid add-ons and support in the wrong time zone.

THE QUICK VERSION

# What OREDI FIT is, in five questions

## WHAT

An app for your members and a back office for your team. Booking, scoring, memberships and a shop.

## WHO

Owners and coaches of CrossFit boxes, strength gyms, HIIT studios and small-group training, plus their members.

## WHEN

Members book before class, check in and log scores during it, and chase PRs after. Your team uses it all day.

## WHERE

On their phones, installed from your own web address. No app store. The back office works on any phone or computer.

## WHY

Fewer no-shows, less admin, faster payment checks, and members who stay.

PROOF IT WORKS

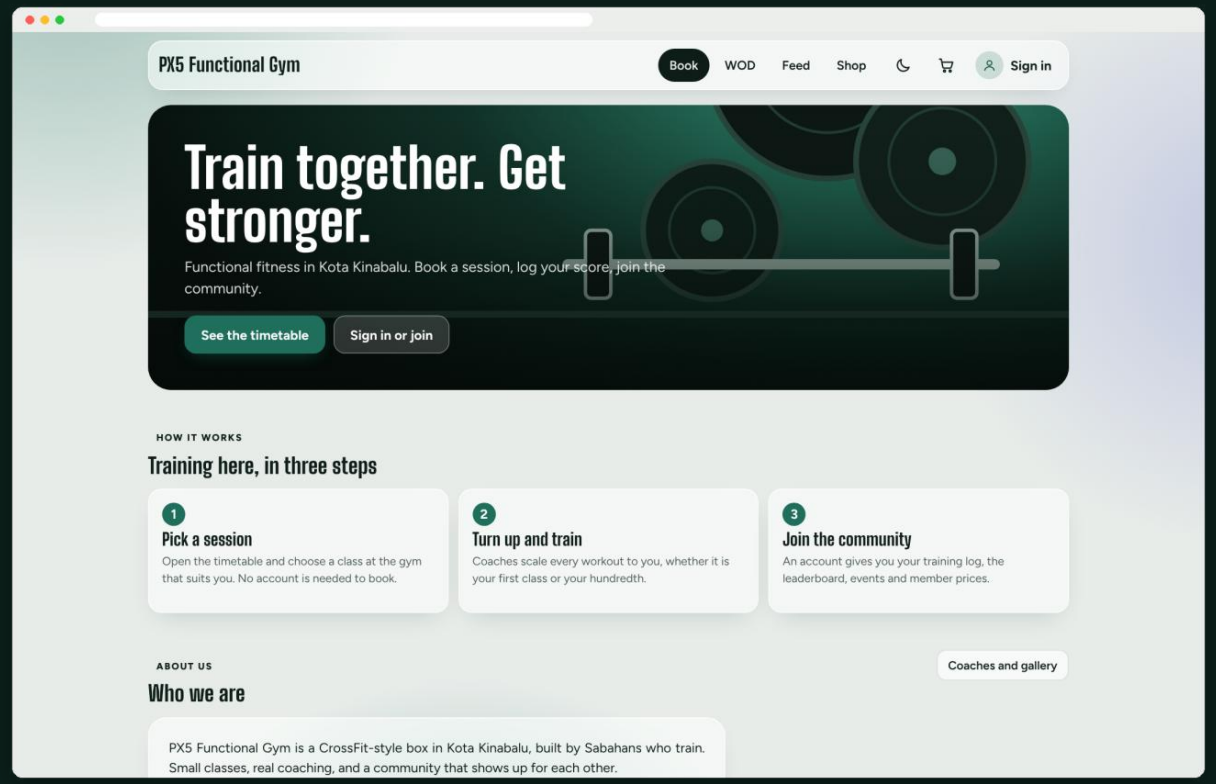

# PX5 runs on it every day

**Two locations,** Stadium Likas and Jesselton Quay, on one timetable.

**Members** book, check in, log scores and buy merch in one place.

**It lives on px5.club,** with PX5's own look.

**Coaches** run the day from their phones.

*Every screen in this deck is the real system, with sample data.*

# Booking takes a few seconds

**Spots left** show for each location, day and time.

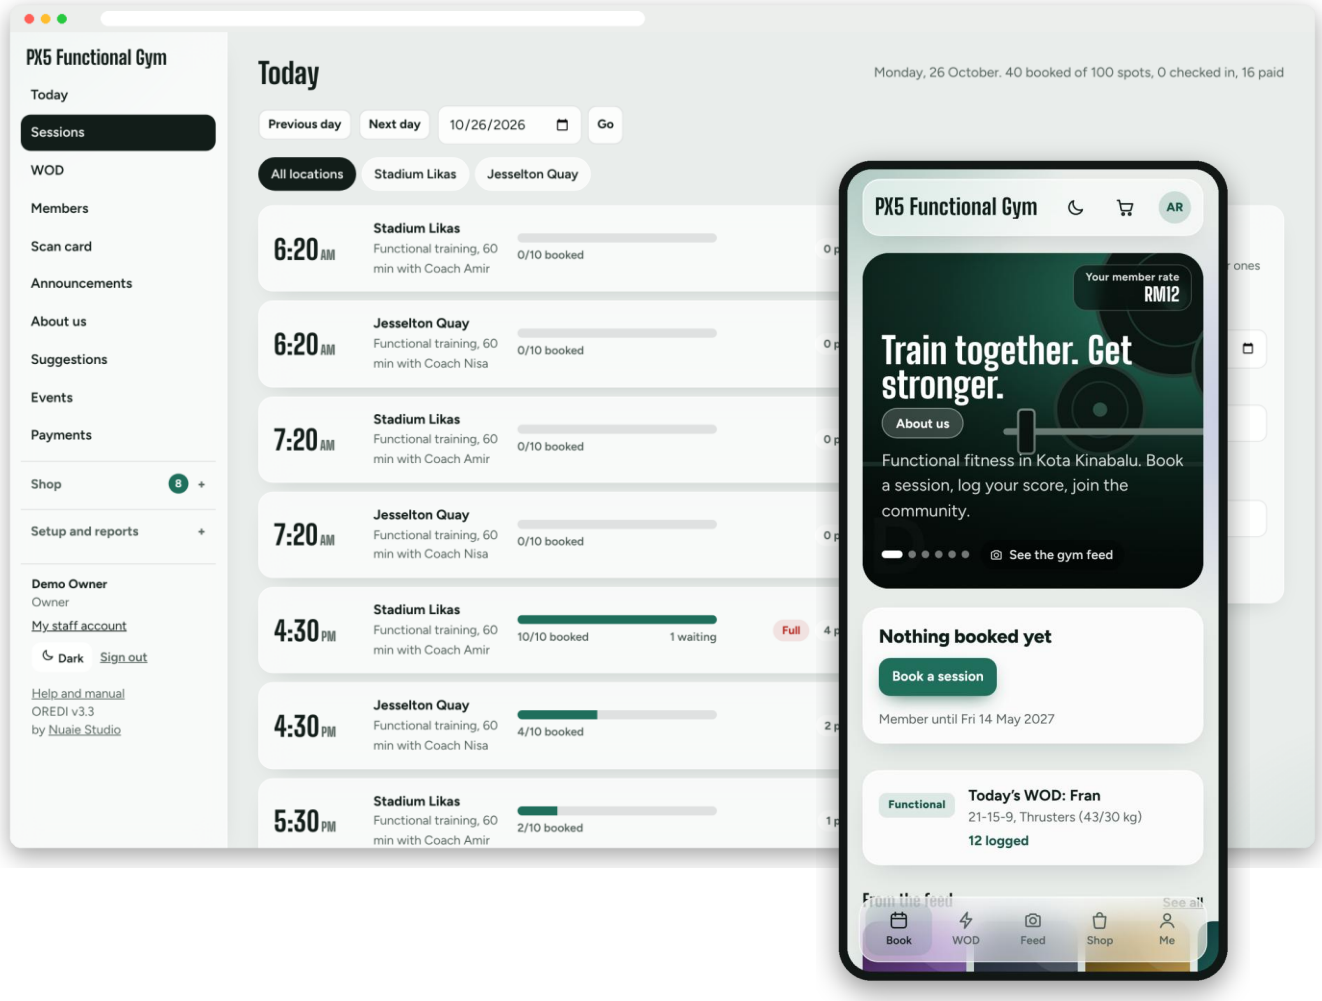

**Several classes at once,** or the same class every week.

**Class full?** The waitlist moves people up when someone cancels.

**Bring a friend:** book them in with their own number.

**Set a minimum.** The class only runs if enough people book, and everyone gets told.

**Your cancellation rules** apply on their own.

MEMBERS: CHECK-IN

# No clipboard at the door

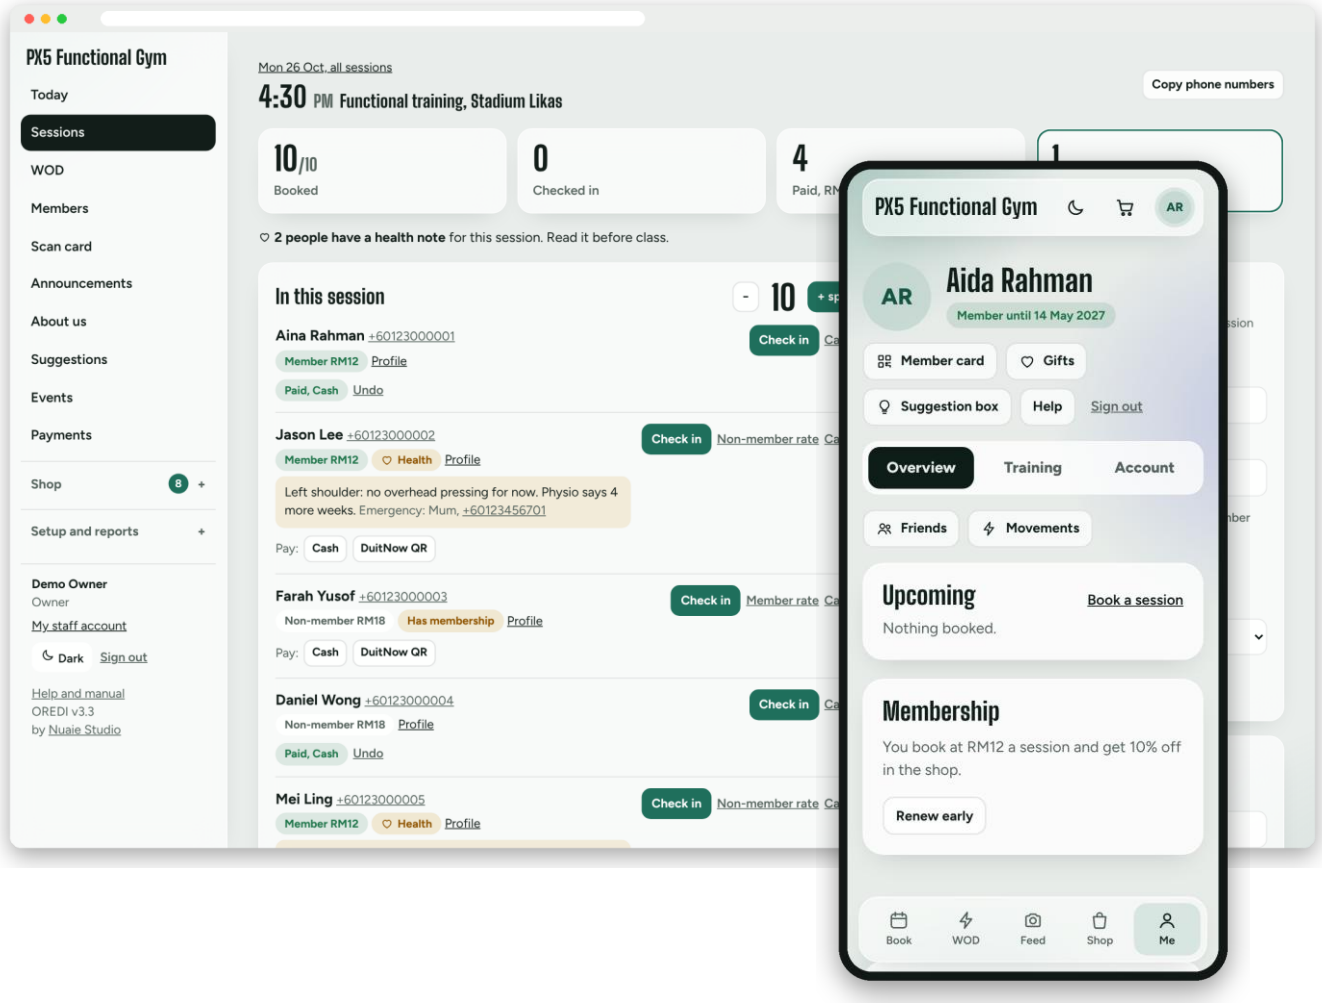

**Every member has a QR card.** The coach scans it.

**Or they check themselves in** once they get to the gym.

**Waiver and health form** are signed once and show up on the roster.

**The roster** shows who booked, who came, who paid and who's waiting.

**Walk-in?** Add them in a few seconds with the right price.

# A whiteboard that never gets wiped

**Snap the board.** The AI reads the workout for you.

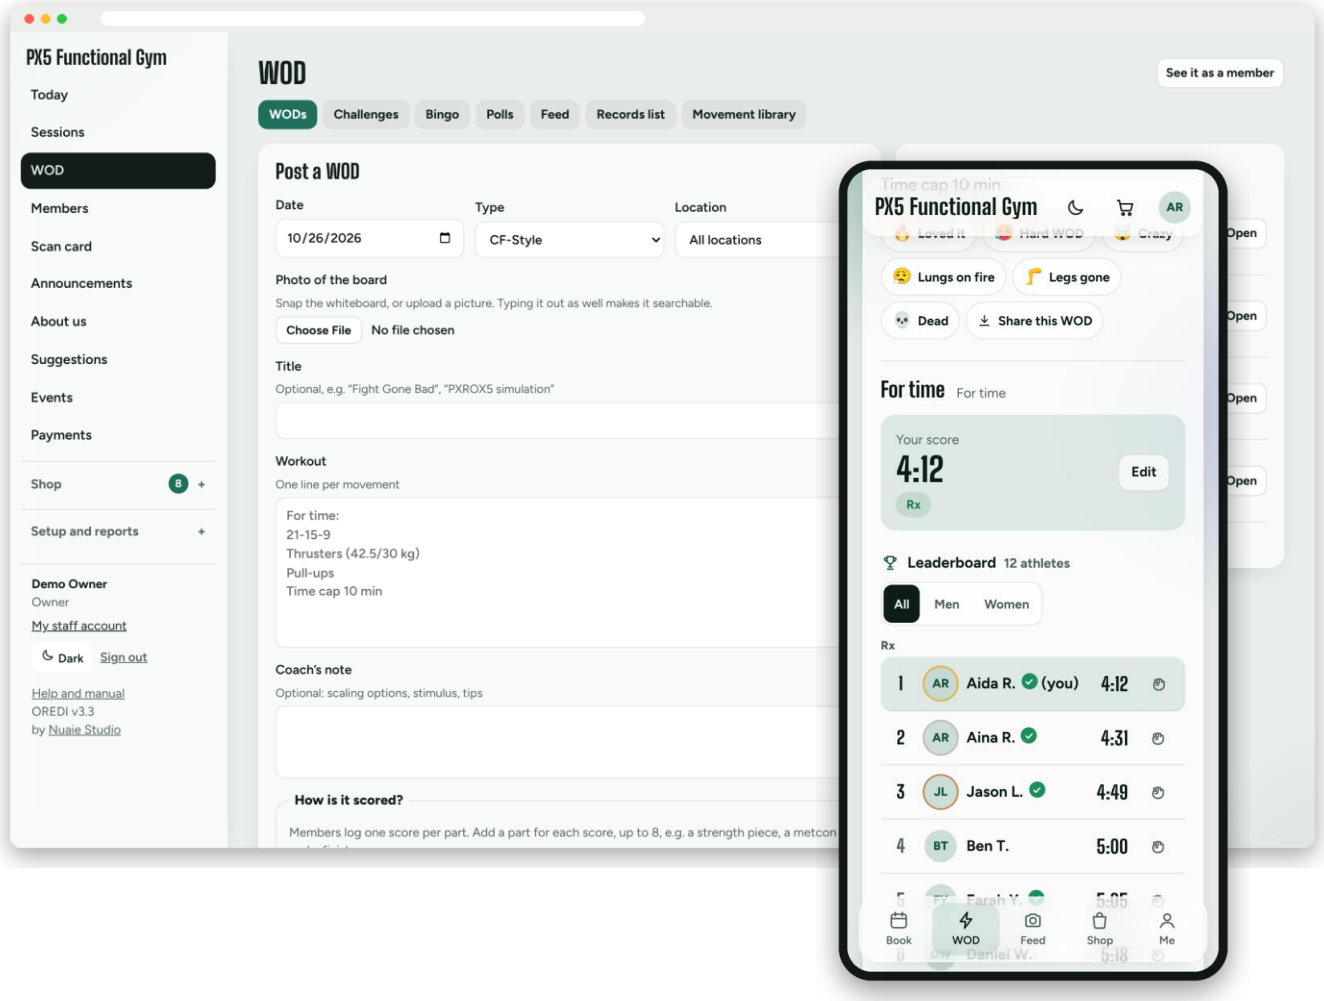

**Members log scores,** Rx or scaled, with splits for PXROX5-style workouts.

**A live leaderboard** by division.

**Reactions and comments,** so people hype each other up.

**A movement library** built from your own workouts.

**Past WODs** are always there to repeat and beat.

MEMBERS: PROGRESS

# Every PR gets its moment

**New records** land on the PR wall, and people send a flame.

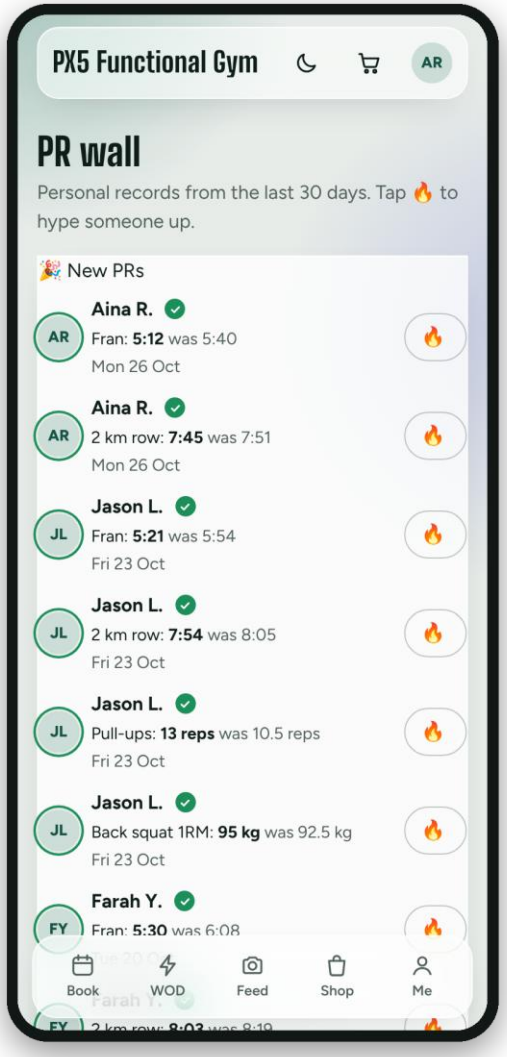

**After a lift,** one tap saves a new PR.

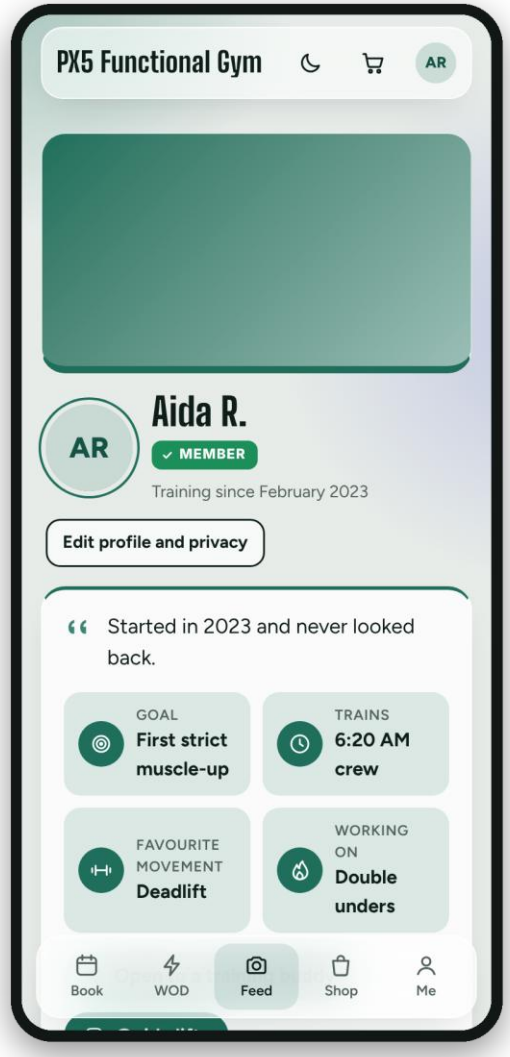

**Props** for strong work, beast mode, or thanks for the push.

**Members make their profile their own:** goal, favourite lift, cover photo.

**Badges** for streaks, events and good vibes.

**Every record** is kept for good.

# A reason to open the app

**A gym feed** with photos and videos, likes and comments.

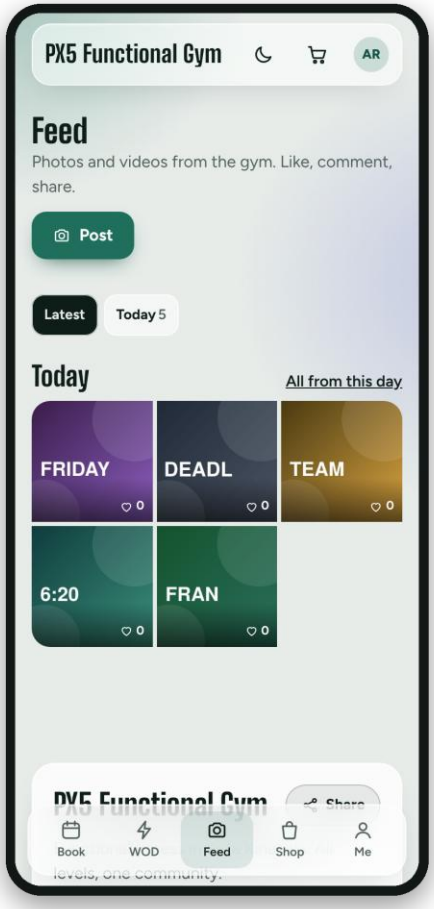

**Challenges and Bingo** for the whole box.

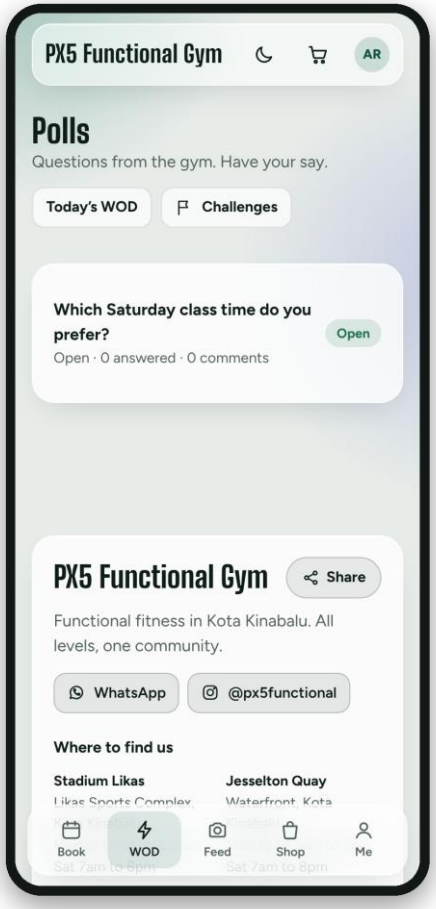

**Polls,** so members help pick the timetable.

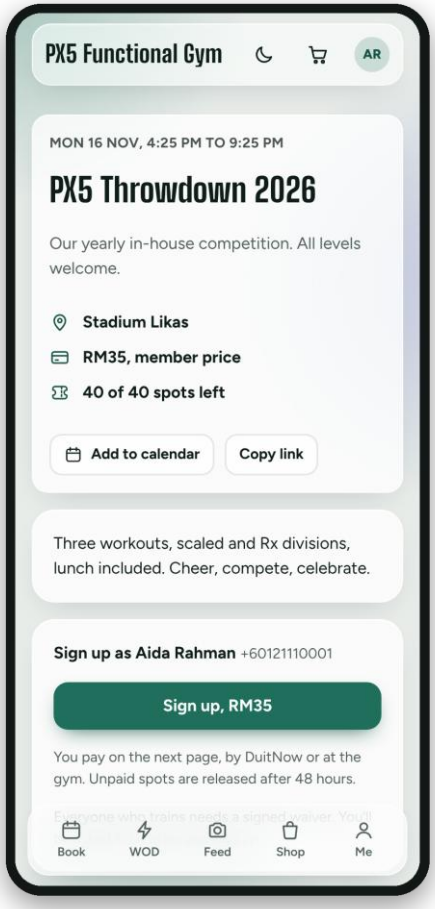

**Team events** with sign-up, team draw and results.

**Birthdays,** wished with one tap.

**A suggestion box** for anyone with an idea.

# Payments the way we actually pay

**Pay as you go,** class packs and yearly memberships.

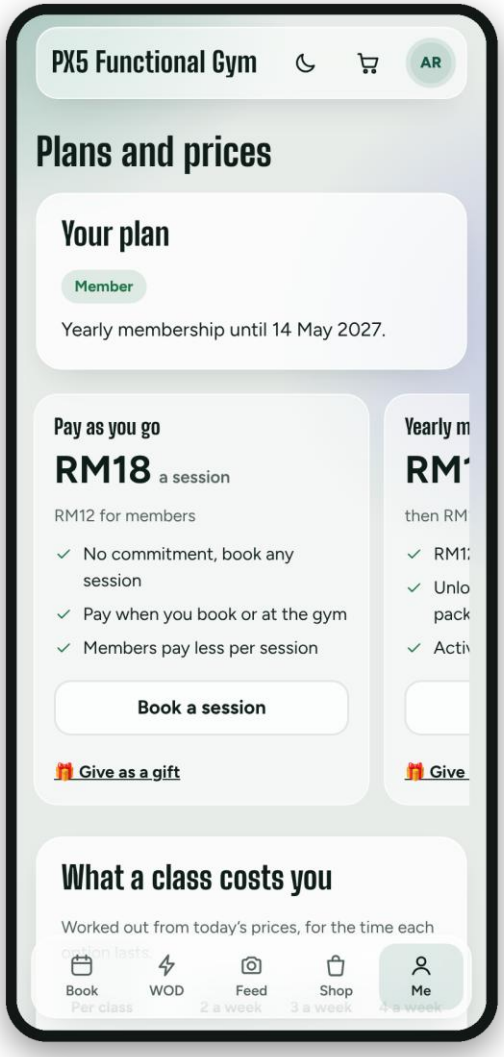

**Member prices** apply by themselves, even in the shop.

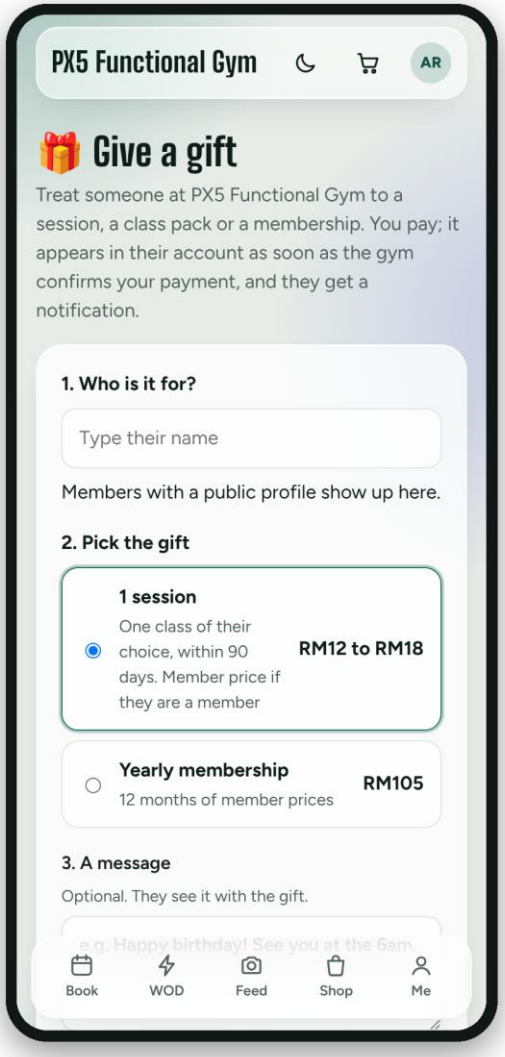

**DuitNow or bank transfer.** Members upload the receipt and you check it with one tap.

**Official receipts** with your name and a receipt number.

**Gift a class,** a pack or a membership to another member.

**Reminders** go out before a membership or pack runs out.

# Your merch shop lives in the same app

**Pre-order or ready stock,** with sizes, colours and size charts.

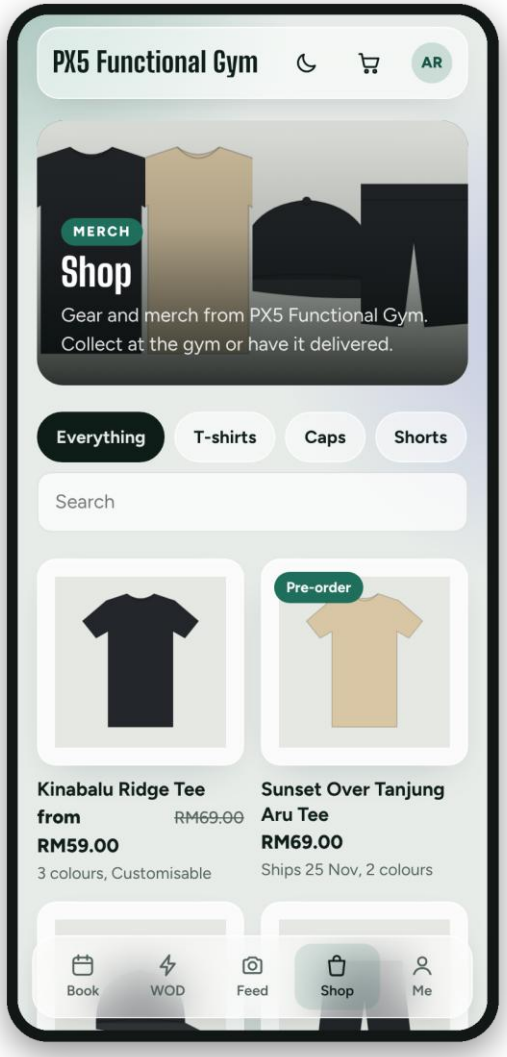

**Photos and short videos,** up to 30 seconds.

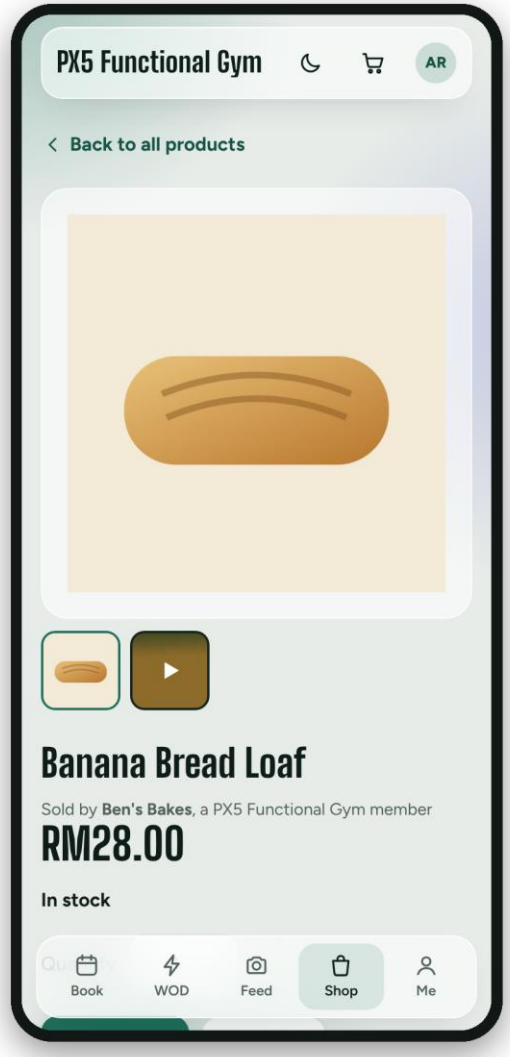

**Pickup at the gym** or delivery to their door.

**Member discount** built in.

**Stock and orders** are tracked for you. Walk-in sale? Use the counter sale.

**A pick list** for packing, and a way to handle size swaps.

NEW: MEMBER VENDORS

# Let members sell in your shop

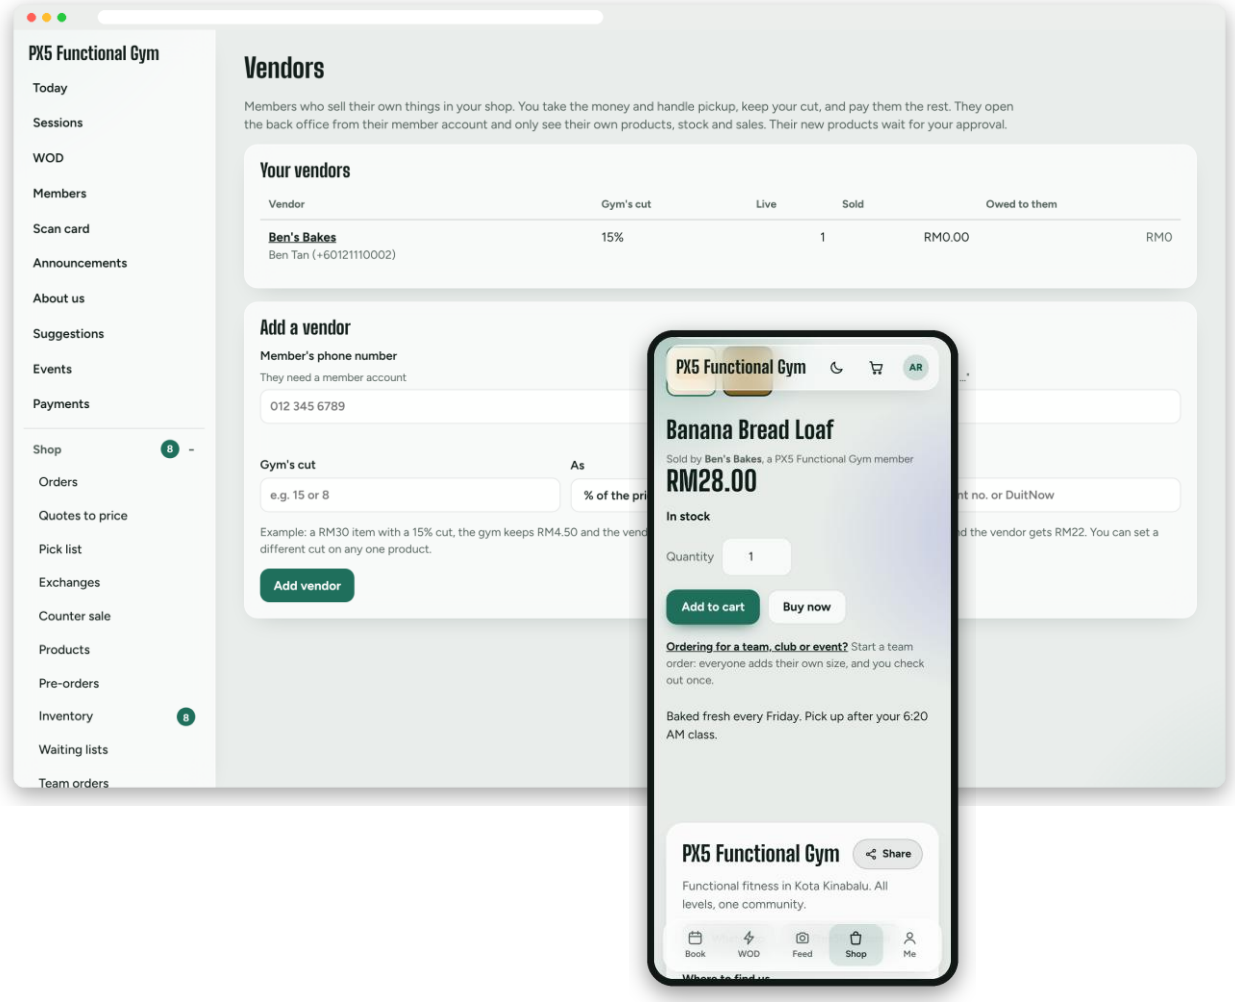

**Any member can become a vendor.** You approve them and their products.

**You decide your cut,** either a percentage or a fixed RM per item.

**The gym takes the payment** and handles pickup, then pays the vendor out.

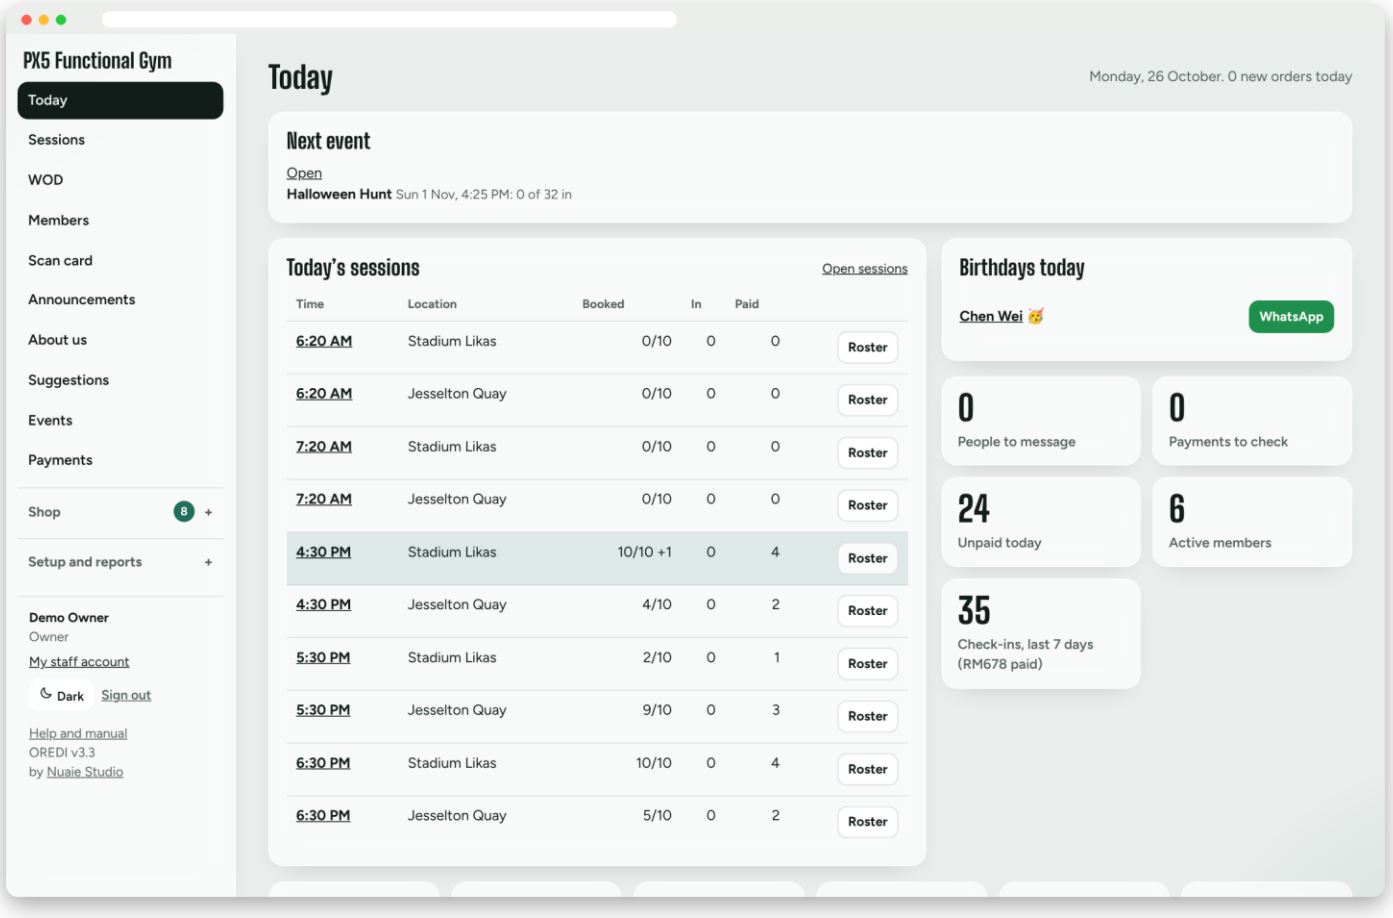

**Every item says who it's sold by,** so the community backs its own.

**Vendors and your team get an alert** when something sells. Each can switch it off.

STAFF: BACK OFFICE

# Your whole day on one screen

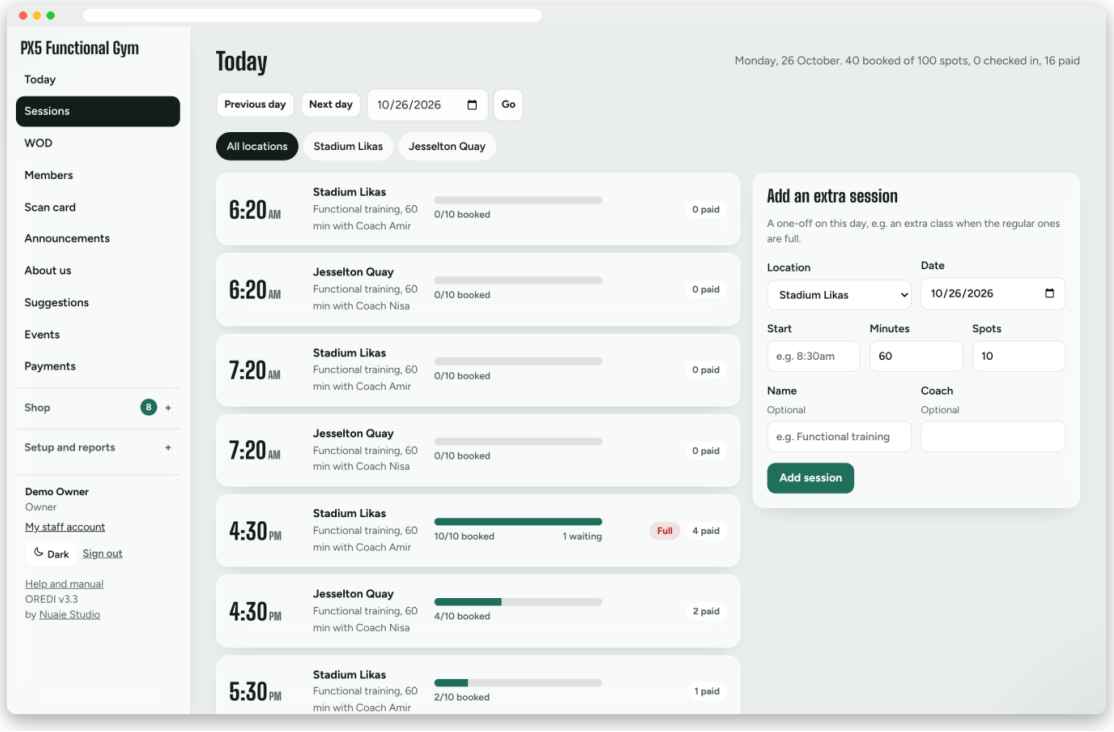

**Today:** sessions, bookings, payments to check and members to message.

**Birthdays** and the next event, right there.

**Staff roles** for owner, admin, coach, checker and packer. Everyone sees only what they need.

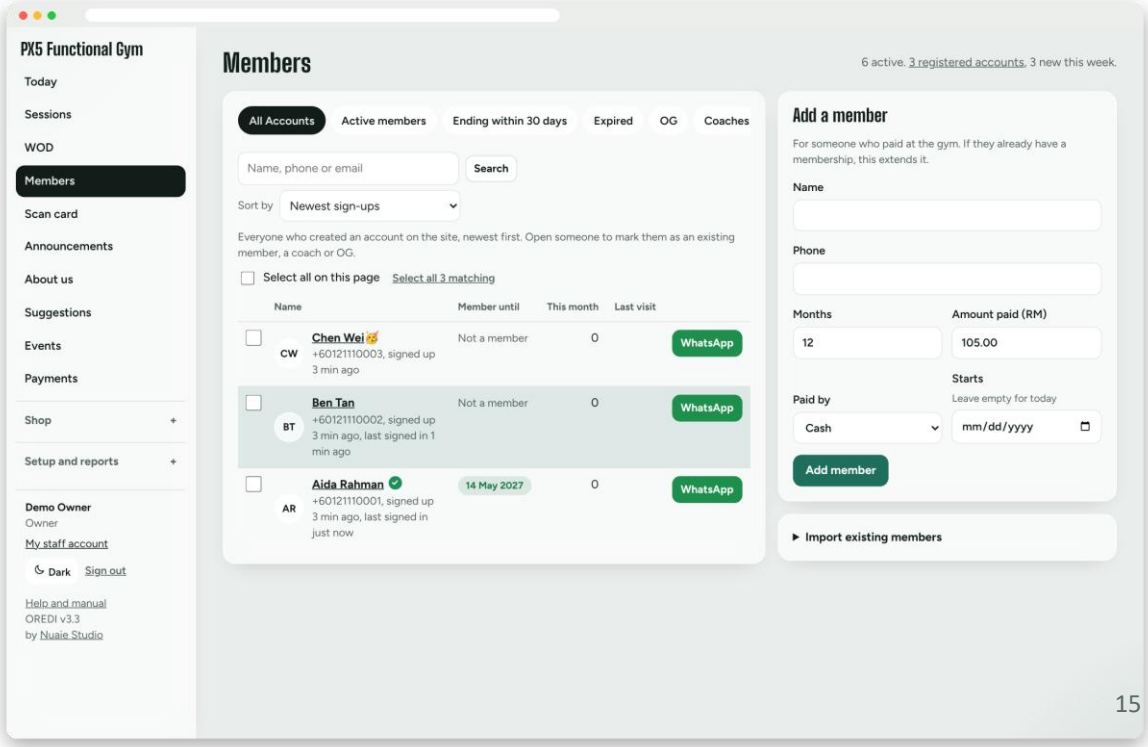

**It works on a phone,** so coaches can run it from the floor.

# Timetable and members, sorted

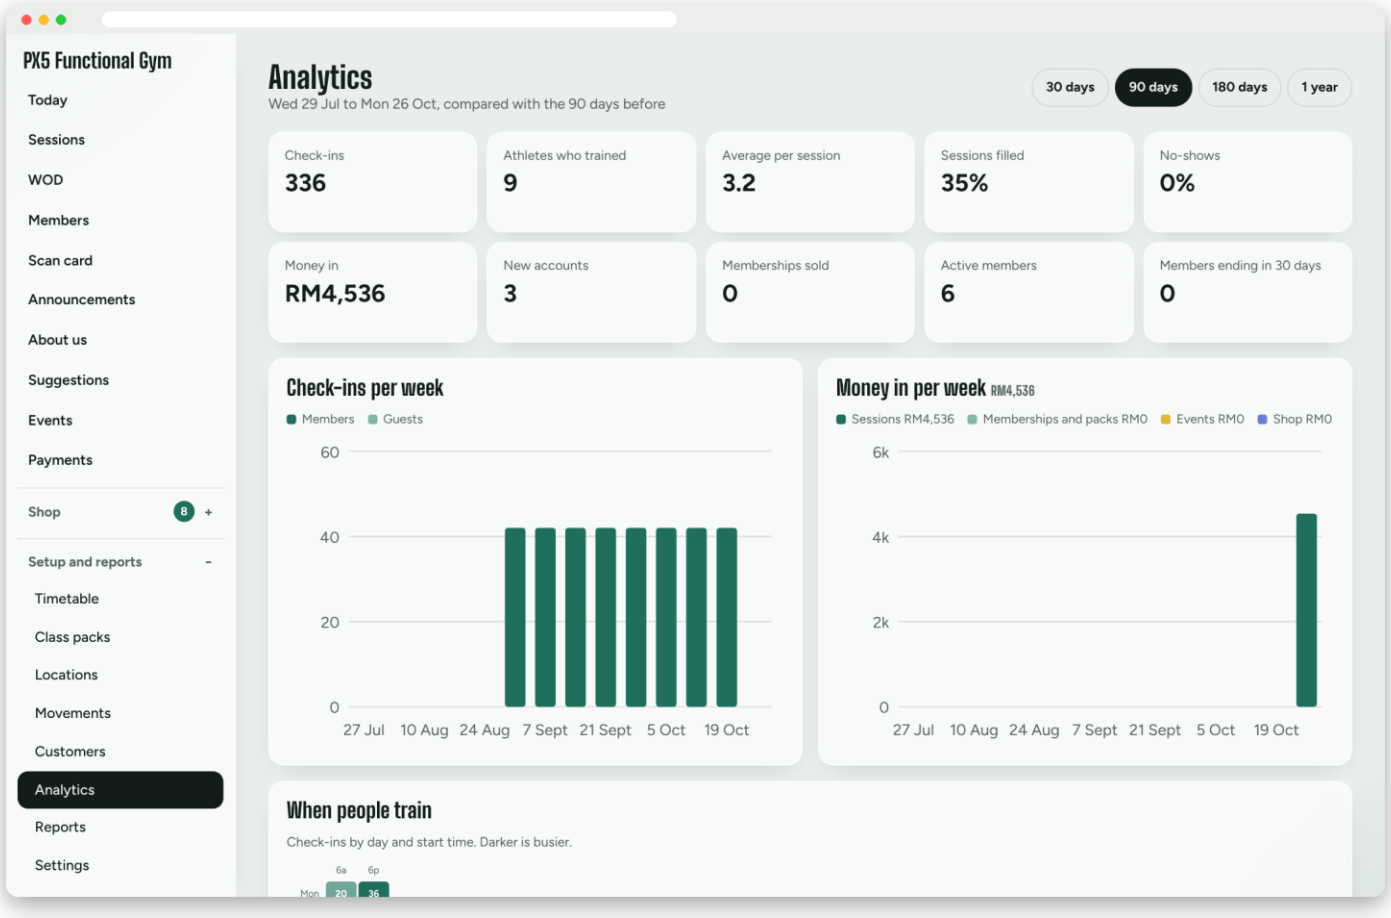

**One timetable per location,** with extra sessions and public holiday closures.

**Members, memberships and class packs** in one list, with a WhatsApp button next to each name.

STAFF: ANALYTICS

# See what's working

**Check-ins, fill rate and no-shows** from 30 days to a year.

**Money in by week,** from sessions, memberships, events and the shop.

Your busiest and quietest sessions.

**Members who've gone quiet,** with a WhatsApp button to win them back.

**Download bookings and orders** as CSV whenever you want.

# Stay in touch without chasing people

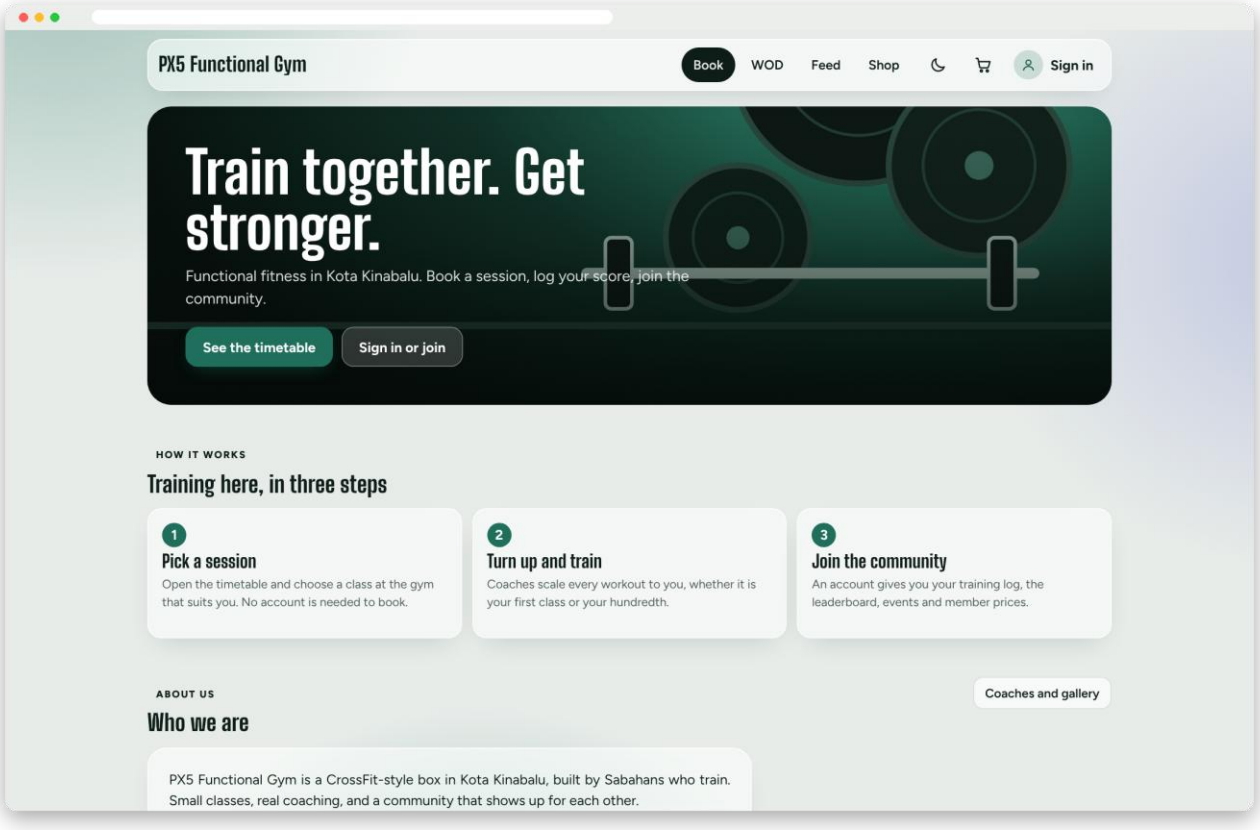

**Push notifications** for WODs, bookings, events and replies.

**Announcements** with photos, buttons and holiday closures.

**Reminders** before class and before a membership ends.

**A public homepage** for visitors, with your timetable, coaches and story.

**Events** with tickets, waitlists, team draws and results.

*Competitor prices are public list prices (Oct 2026), converted at US$1 = RM4.08, and they change often. "-" means we didn't find it as a listed feature. Please double-check before you decide.*

# What a year really costs

**RM1,500**

saved in your first year on a founding 1-year plan. That's RM1,200 off the standard rate, plus the RM300 setup fee waived.

*Competitor figures are list prices for 12 months at US$1 = RM4.08. They leave out payment processing, onboarding fees and tax, and the plans don't all do the same things.*

| Standard rate, 1 year | RM299 | Free | - | - | RM3,588 | RM299 |

**On the 1-year plan, RM199 is locked for all 12 months. That's RM1,200 less than the standard rate, and the RM300 setup fee is gone.**

# What's included, and what isn't

## In every plan

Your own domain, set up for you

Hosting and security

Every feature in this deck

Your timetable, locations, branding and prices set up

Your existing members imported

New features and updates as I release them

WhatsApp support from a Sabahan, not a call centre

## Extra, only if you ask

**Small change** — **from RM80**

A label, a setting, a small tweak.

**New feature** — **from RM150**

Something your gym needs that we don't have yet.

**Big custom build** — **Quoted**

Integrations, or anything that takes weeks.

**I always quote first. You say yes, then I build.**

GETTING STARTED

# From hello to live

OREDI

1

## Demo

See it on your own phone, or I come to your gym.

2

## Setup form

You fill in a short form with your gym details. I build your timetable, prices, branding and domain.

3

## Soft launch

Your coaches try it first. We fix anything, and I import your members.

4

## Go live

Members install it and start booking. I'm on WhatsApp if anything's off.

**Want to see it in person? I'm happy to come to your gym for a demo. WhatsApp me on +60 12-821 8280.**

YOUR QUESTIONS

# What gym owners usually ask

### Do my members need to download an app?

No. They open your link and add it to their home screen. It works like an app and updates by itself.

### Can I bring my existing members?

Yes. Send me the list and I'll import it. Their memberships carry over.

### Do you take a cut of what members pay?

No. Members pay your bank account by DuitNow or transfer. You check the receipt and the money is yours.

### Is it only for CrossFit?

No. Any gym that runs sessions and wants a real community: strength, HIIT, small-group training.

### What if I want to leave?

You can download your bookings and orders any time. The longer plans are discounts, not a trap.

### Can I ask for a feature?

Yes. I'll quote first. Small changes start from RM80, new features from RM150.

FOUNDING GYM OFFER

# Only the first 5 gyms get RM199

### RM199, not RM299

That's RM100 a month less than the standard rate.

### Locked in

Take the 1-year plan and RM199 stays for all 12 months.

### A say in what's next

Founding gyms help me decide what to build.

### Setup waived

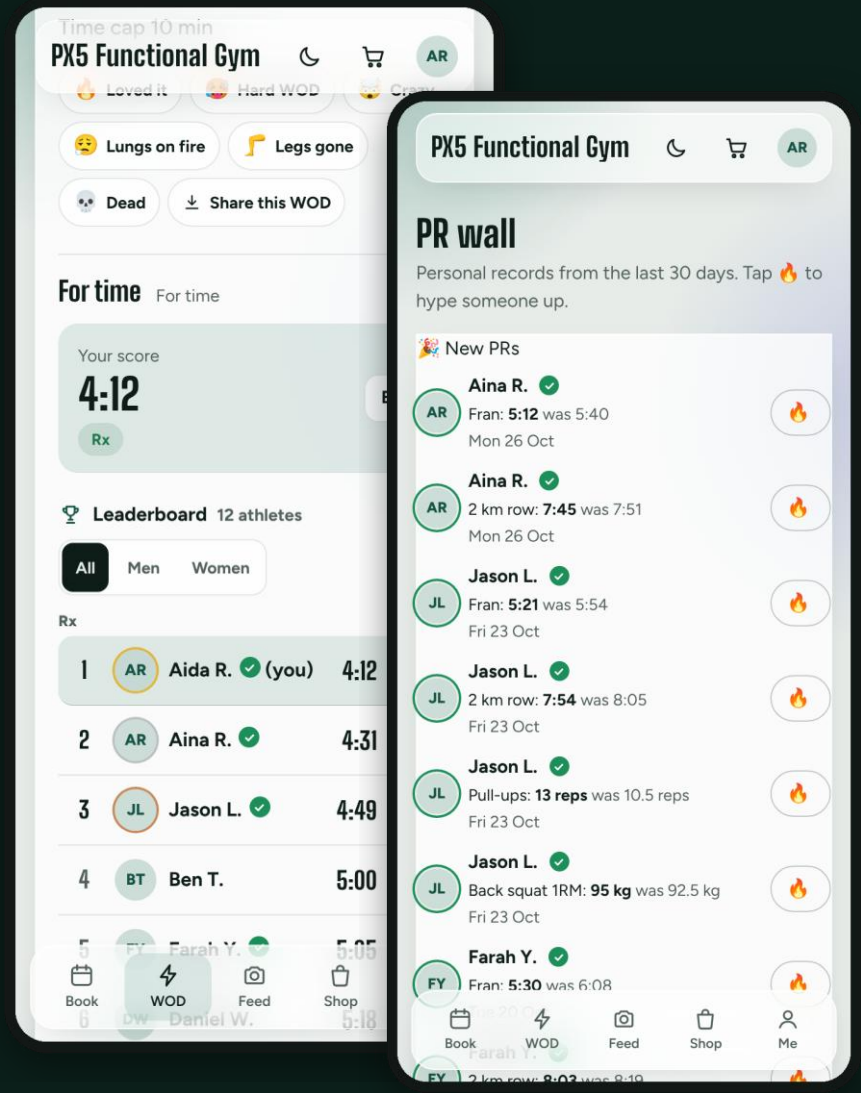

The RM300 setup fee is free on the 1-year plan.

**Message me and I'll hold a spot for you.**

OREDI

# Come see it on your own phone

WhatsApp me for a demo, or I'll come to your gym and walk you through it. When you're ready, I'll send you a short setup form.
